East End Apartments: Excellence in Historic Preservation Award & LEED® Certified
RUPCO's scatter-site development, East End Apartments, received two prestigious, national recognitions this month:

Preservation League of NYS is recognizing East End Apartments as one of eight developments with its Excellence in Historic Preservation Award on May 9.

All 15 properties received energy-efficiency certification from The LEED (Leadership in Energy and Environmental Design) rating system, developed by the U.S.Green Building Council (USGBC), the gold standard for buildings, homes, and communities that are designed, constructed, maintained, and operated for improved environmental and human health performance.
RUPCO received a $344,500 grant as part of a $3.2M federal allocation awarded to 12 New York State community development organizations, all members NeighborWorks America.

"Access to affordable housing is essential for the health of our families and the economic strength of our communities," said Senator Schumer. "This funding, from NeighborWorks America, will strengthen neighborhoods, remove blight, and provide safe, quality housing for families across Upstate New York."

"Every New Yorker deserves to have a safe place to live," said Senator Gillibrand. "These federal funds will support organizations throughout Upstate New York that are working to revitalize and improve their communities and that help provide affordable housing options for families in our state."

Since 1993, RUPCO has been a NeighborWorks America chartered member with an exemplary rating; NWA is a national nonprofit, nonpartisan leader in affordable housing and community development that provides grants and technical assistance to organizations that support affordable housing initiatives, neighborhood revitalization projects, small business lending, and more.
